CERTIFICATE OF COMMENDATION

I have gone through the manuscript of Mr. Sainbok Lyngkhoi entitled KA KUR LYNGKHEI THANGMYRSIANG and found it very interesting. I believe that this research work on the subject matter has taken the author's time of about 3 or 4 years. Although the content may seem small but undoubtedly the effort put into it ought to be appreciated. Mr. Sainbok Lyngkhoi has a keen interest in writting and I am sure that this beginning will propel him to greater heights in his future writing career especially if help and encouragement is forth coming from all quarters.

I wish him success in life.
